Primary goal of the Conference is to promote Research and Developmental Activities in Information Technology and Networking. It also aims to provide a platform for exchanging ideas in new emerging trends that need more focus and exposure and will attempt to publish proposals that strengthen our goals. Original papers are invited on Computer Networks, Network Protocols, Wireless Networks, Data Communication Technologies, and Network Security. The aim of the Conference is to offer an international platform for the academic scientists, researchers and research scholars to exchange and share their experiences and research results in the field of Information Technology, and Network.

CALL FOR PAPERS

Contributors are invited to participate and present papers in the conference. The paper should be in IEEE format and not more than 6 pages. Full papers can be sent to the E-mail: grditconference@grd.edu.in. All submissions will be peer reviewed and evaluated based on originality, technical contribution, depth of knowledge and readability. Any one of the authors for the selected paper must register and present the paper at the conference.

Selected papers will be published in the WIDE SPECTRUM, an ISSN Research Journal.

Paper Titles: (But not limited to)
- IP Block Addressing and Regional Internet Registries
- Multilingual IDNs
- Virtual Network Computing
- Service Centric Networking
- Data Management and visualization
- Intelligent and Decision Support Systems
- Peer to Peer and Overlay Networks
- Segment Routing
- Surface Computing
- Tolerant Routing
- Process of Everything (PoE)
- Block Chain / IoT
- Machine Learning
- Artificial Intelligence
- Content Aware Search Engine
- Drone Technology
- Geo Replicated Cloud Storage
- VELOCITY Compiler
- Social Based Routing
- Multiprotocol Label Switching

DEPARTMENT OF COMPUTER SCIENCE

The Department of Computer Science works on updated views and ideas in the emerging technological advancements and Research. The department has the state of the art infrastructure, well equipped labs with the updated software and hardware. The Robotics lab adds a feather to the cap comprising of the most recent gadgets the class rooms are also equipped with the audio visual aids for the better understanding of the Students. The Department offers the Undergraduate Courses in B.Sc (CS), B.Sc (IT), B.Sc (CT) and BCA and the Postgraduate Courses such as M.Sc (IT) and MCA. Research and Development in the field is envisaged through M.Phil / Ph.D programmes.

CONFERENCE OBJECTIVE

Computer networking offers immense technological solutions to businesses and institutions in various formats. This exponential growth leads to a lot of challenges that results in the design of new techniques, protocols and applications of networking and information technology. The conference is also a space for creating collaborative links between academics and professional practitioners and their workplaces, aiming at long-term sharing of knowledge and discussions of highly current issues.
