Functioning of the Autonomy

Under the **Scheme of Autonomy**, the **College** brought-in all possible learner-centric requisites to update/revise and redesign the curricula of the various disciplines under the Choice Based Credit System through the respective Boards of Studies to ensure academic brilliance par excellence during 2021-2022. During the year under review, Boards of Studies meetings were convened and subject professionals from renowned Institutions / Corporate Sectors and distinguished alumni were invited for discussions leading to the enhancement of the Course Structure.

The Nineteenth Academic Council Meeting of the College was convened on 30.8.2022 to scrutinize and approve the changes/updatons in the various courses, Schemes and the Syllabi enhanced by the respective Boards of Studies.

The Autonomous Term End Examinations were conducted during November / December (2021) (odd semester) and April / May 2022 (even semester) as per the planned schedule. The results were published with an overall pass percentage of 96.48 % for UG and 97.92% in the PG courses. Further, for the benefit of the failed outgoing final years, UG and PG Students of the various courses, Special Supplementary Term End Examinations were conducted during the month of September, 2022. This has been accomplished through the excellent cooperation of the Faculty.

The online direct verification system under the Global Document Authentication System (GDAS) Technology developed by *Myeasydocs* enables the document verification process at ease. The mark sheets and other documents issued from the College are verified through the online verification process 'Direct Verify' (www.grdinstitutions.directverify.in) by various employers and educational Institutions across the world. Also, i-transcripts facility enables to obtain transcripts within working hours through online for higher studies. Students who want to study in Canada, through World Education Services (WES), the College signed a MoU with WES to e-transfer the transcripts, which will enable our Students to reduce their time in processing.

ANNUAL REPORT 2021 - 2022

From the academic year 2020-2021, due to the Pandemic, COVID-19 situation, as per the guidelines of the Bharathiar University, the College has been conducting online Term End Examinations from November 2020 using the NeoExam platform. The platform is driven by Artificial Intelligence & proprietary Machine Learning algorithms, the online MCQ and descriptive type Term End Examinations being conducted for all UG & PG programmes. The students writing examinations were proctored by two modes i) Artificial Intelligence Proctoring ii) Manual proctoring. Student's images will be uploaded automatically for every five minutes in AI proctoring, whereas the manual proctors do invigilate with video and can make text messaging to communicate with the Students. In addition, the proctors can view the test completion status and answer scripts submission done by the Students. This will enable the Students to take up their examinations seriously as in the campus. The online evaluation facility in NeoExam makes the examiners value the answer scripts allotted to them from their places itself. The database of the completed examinations will be available for the Institution's need.

MIST CHAMBER – A PLANT PROPAGATION UNIT

The Mist chamber is an enclosed structure, in which, mist is generated artificially for the propagation of Plants or seedlings. Inside the Chamber, relative humidity is maintained at a high level (95 %) with the help of the mister's, which spray water under high pressure. The size of the mist particles lies between 50 to 100 μm . High relative humidity facilitate better root initiation and the cooling effect prevents the cutting from drying out.

The **Mist Chamber** was established in the year 2006 by the Department of Biotechnology, Dr.G.R.Damodaran College of Science (Autonomous). During 2018 it was renovated with the objectives of fulfilling the job profiles of the self-employed besides the farmers. This process also enables the Students to develop their skills in Green House Executive employment, Entrepreneurship and Professional careers in the fields of the service sectors such as High-Tech Farming and Marketing. The Mist Chamber process helps to enhance the Students with multifaceted skills and to nurture intertwining competence in the field of agriculture. This will make Students perfect in all the skills of greenhouse farming and entrepreneurship.

OBJECTIVES

- To Impart training to the UG students and the entrepreneurs on the nursery technologies for horticultural crops
- As a part of the Curriculum, Career oriented Course (COP - Agro-Industrial Practices) Plant propagation Practices, lab practicals are also conducted related to the Biotechnology Students.
- The Biotechnology Students initiated Research project activities in the field of plant propagation practices.
- Medicinal plants are grown through the Hydroponics methods.
- Economical cultivation thro' optimum utilization of space can be achieved.

VERMICOMPOST PRODUCTION UNIT

I. Solid Waste Management: Vermicompost production and Application

solid-waste management is the process of collecting, separating, treating, recycling and application. If it is disposed improperly it creates unsanitary conditions, and these conditions in turn can lead to pollution of the environment besides the outbreaks of vector-borne disease—that is, diseases spread thro’ the rodents and insects. The tasks of solid-waste management present complex technical challenges. They also pose a wide variety of administrative, economic, and social problems that must be managed and solved.

Vermicomposting is the process by which worms are used to convert organic materials (usually wastes) into a humus-like material known as vermicompost. The goal is to process the material as quickly and efficiently as possible.

OBJECTIVES

- As a part of the curriculum, career oriented programmes (COP), Vermi-technology lab practical’s were also conducted for the Biotechnology Students.
- To impart Vermicompost training programmes related to the UG Biotechnology Students.
- Biotechnology Students initiated research project activities in the field of Vermi-technology.
- To produce a good quality Vermicompost thro’ the use of crop residues, weed biomass, vegetable wastes, leaf litter and kitchen bio-waste from the Hostel and the Canteen gathered from the Dr.G.R.DamodaranCollege of Science (Autonomous), College campus.
- Application of Vermi-compost for all the trees and shrubs in our College campus as well as the plants in the Mist chamber to enhance their growth.

CLEAN INDIA PROGRAMME – Class room Cleaning

Date: 08.10.2021 - Friday

INTRODUCTION OF CLEANLINESS

- Cleanliness is a habitual process that we must do on daily basis.
- For instance, personal hygiene and environmental cleanliness are equally important to lead a happy life.
- In fact health and cleanliness are related to each other. To get good health one must practice hygiene.
- School buildings and campus facilities are subject to daily wear and tear.
- Cafeterias, restrooms, classrooms, and administrative buildings these list of areas that need to be cleaned on campus.
- Looking at the poor perception of people towards cleanliness, the Government of India introduced a “SWACHH BHARAT MISSION OR CLEAN INDIA CAMPAIGN” on 2nd October 2014.
- The aim of the mission was to encourage people for personal cleanliness as well as for environmental cleanliness.
- Government agencies and concerned non-governmental organizations held cleanliness campaigns from time to time to raise awareness and to inspire people to make cleanliness a habit.
- CLEANLINESS is a mindset – a positive habit that keeps the body mind and environment happy, healthy, simple, neat and delightful.

TOBACCO AWARENESS -Pledge

Date: 21.10.2021- Thursday

- On an average, the life expectancy of a smoker is 10 years less than a non-smoker.
- Cigarette smoke contains more than 7,000 chemicals, 70 of which are known to cause cancer.
- Nearly 9 out of 10 smokers start before the age of 18 and almost all start smoking by age 26.
- Every day, more than 3,200 children and teens under 18 years old smoke their first cigarette. (There are also 2,100 young adults who turn into daily smokers each day.)
- For every person who dies from a smoking-related disease, 20 more people suffer from a smoking-related illness.
- Smoking and tobacco use causes more than 5 million deaths per year worldwide. Current trends show that this will increase to more than 8 million deaths annually by 2030.
- Smoking is responsible for about 1 in 5 deaths annually in the United States. (That means tobacco causes about 480,000 deaths per year—and 41,000 of those deaths are because of exposure to second-hand smoke).
- Smoking causes cancer, heart disease, stroke, diabetes and lung diseases (including emphysema, bronchitis and chronic airway obstruction).
- Smokers typically inhale about 1 milligram (mg) of nicotine in a single cigarette, for some, that's all it takes to become addicted.
- Tobacco is the leading cause of preventable death in the world.

Volunteers started from the campus at 9:20am and reached Dr.GR Damodaran College of Education, Kurumpalayam by 9.50am. The inaugural programme began at the 10:30 a.m. The respected Principal of Dr. G.R..Damodaran College of Education, Dr. P.D. Vandhana Devi received the chief guest Mr.P.Kanthavel, Village President along with the ward members of the panchayat for the inaugurals. The programme began, the Principal, Dr. P.D. Vandhana Devi, addressed the gathering, followed by the guest of honour (Mr.P.Kanthavel, Village President) which was an inspiring speech. He shared his past memories of our prestigious Institution, besides highlighting that he was an alumnus of our own Institution. Some of the Ward members felicitated. NSS leader, Ramaswamy S, III BA English literature, shared his volunteering experiences in the function as requested by the Village President. At the end of the program, the chief guest was honoured by the Principal with a memento from the Institution. Then all the members of the Panchayat were also honoured with the mementos. The Principal and the in-charge teachers of the NSS were honoured with the traditional shawls. At 11:30 a.m. the inaugural programme came to an end by singing the National Anthem.

Degradable and non degradable Awareness (Morning)

At 11:45 am NSS volunteers and the B.Ed students reached Kurumpapalayam for the awareness rally. Mr.P.Kanthavel, Village President, Ward members and the public extended their support for the rally and was flagged off by the Village President. The students of the NSS held banners and placards of bio degradable and non bio degradable waste and simultaneously distributed pamphlets and stuck posters on the streets of the village. The members of the NSS interacted with the public and handed over the pamphlets individually by explaining the importance of waste management. After distributing the pamphlets, the students headed back to college for lunch.

Covid and Dengue awareness (Afternoon)

After lunch we had a small discussion on Covid and Dengue awareness which was our next program. We came back to Kurumpapalayam and then walked the streets of the village and handed over the pamphlets of Covid and Dengue awareness. The Volunteers of the NSS handed over the pamphlets individually to all the houses in the streets. At 3:00 pm we left the village and headed back to college.
